To whom it may concern,

As the president of the MLS team Montreal Impact I have had the fortune of working with OSA Soccer Academy, LLC, and its owner Giuseppe Pezzano, since 2008, and would strongly recommend their services.

OSA organized a preseason training camp for the Montreal Impact's first team in Florence, Italy. The entire organization of the 10 day tour was managed by OSA and included comfortable hotel accommodations, a diversified selection of food, transportation and friendly matches against professional Italian soccer clubs. OSA also organized a soccer camp for players enrolled in the Montreal Impact's soccer schools. Players and several families went to Florence for ten days, where OSA managed the organization of daily practice sessions, hotel accommodations, meals, transportation and other activities for both the players and their families.

I also had the opportunity to work with OSA's owner during the organization of a friendly match between the Serie A Italian club ACF Fiorentina and Montreal Impact. ACF's first team travelled to Montreal for a very successful and well attended match at Saputo Stadium.

Cordially,

Joey Saputo

President, Montreal Impact
